Carolin Schönherr, CFA joins the advisory board of Kaleidoscope Capital to enhance expertise in Risk Solutions

London, 28 July: Kaleidoscope Capital, the independent advisory firm headquartered in London focused on providing a full range of solution driven services on alternative investments, announces that Carolin Schönherr, CFA has joined the company's advisory board.

Having successfully advised family offices, funds and institutional clients since 2014 and recently partnered with MJ Hudson to enhance the coverage of liquid alternative strategies and emerging managers within their investment consulting practice, Kaleidoscope Capital will benefit from Carolin Schönherr's experience of designing, establishing and adapting non-financial risk framework, tools and process. She has a strong track record of implementing and managing global teams with focusing on risk culture and corporate governance.

Carolin Schönherr said: "Impactful Risk management ensures we protect revenue from successful investment strategies through understanding and managing our risk appetite and exposure in pursuing strategic goals. Working with Kaleidoscope Capital's talented team will allow us to combine investment expertise with risk solutions." Carolin is the Founder of Risk as Service Ltd, a risk advisory firm supporting clients in complex risk and governance topics.

Davide Alfano, managing director of Kaleidoscope Capital, adds: "We are very pleased that Carolin joins the advisory board of Kaleidoscope Capital. She is a tremendous addition to our team of advisors that will further improve the company corporate governance and our capabilities in effectively assist clients through the agile, but institutionalized, operational advisory model that we deploy."

As part of Kaleidoscope Capital growth and expansion into a broader provider of advisory services for family offices, funds and institutional clients, Kaleidoscope Capital will receive guidance on evolving its non-financial risk practice and supporting clients in protecting their operational resilience.
